## Summary

Results-driven Software Developer with over three years of hands-on experience in frontend and full-stack development. Skilled in building scalable, high-performance web applications using React, Node.js, and modern state management solutions. Strong expertise in writing clean, maintainable code, optimizing application performance, and integrating secure backend services. Proven ability to collaborate effectively within cross-functional teams in both remote and onsite environments. Committed to continuous learning, technical excellence, and delivering impactful digital solutions that enhance user experience and business growth.

## Professional Experiences

<b>1. Freelance Developer, Freelance (Remote &amp; Onsite),</b> Yangon	Dec 2023 - Past
I worked on various real-world projects for clients, including:	
<ul style="list-style-type: none"><li>Pizza Ordering System - built with Laravel, Vue, Tailwind, SQLAlchemy. Example: order creation, user authentication, and cart management.</li><li>Trip Advisor - using React, Node.js, MongoDB. Example: appointment trip plan, image upload with Multer.</li></ul>	
<b>2. Junior Frontend Developer, Cube Yangon (Remote &amp; Onsite)</b>	Sept 2024 - Past
I work on building and maintaining E-commerce system using React and a Spring backend, focusing on stable authentication and smooth data handling.	
<ul style="list-style-type: none"><li>Led the frontend development of a scalable learning platform using React, Tailwind CSS, custom styling, React Router DOM, Zustand, AWS S3, and Node.js/Express.</li></ul>	
<b>3. Frontend Lead, (Hybrid), Thailand</b>	Sept 2025 - Present
<ul style="list-style-type: none"><li>Improved frontend structure by using reusable React components, infinite scroll for course lists, and efficient routing.</li></ul> <p>Enhanced state management with Zustand, reducing unnecessary re-renders and keeping the app responsive. Increased code quality and efficiency by organizing files clearly, using clean patterns, and optimizing API calls and image handling through AWS S3.</p>	

# Educations

## B.Sc (Hons) Computing, Yangon

Edinburgh Napier University (UK)

## HNC & HND (Pearson) in Computing, Yangon

## Info Myanmar University

# Technical Skills

### Frontend

- React (Advanced)
- Next.js (Currently Learning)
- Tailwind CSS, Custom CSS
- React Router DOM
- React Native
- EJS
- PHP (Basic)
- Python (Flask)

### Tools & DevOps

- GitHub, Bitbucket
- AWS S3
- Vercel, Render
- AWS Server (Ubuntu)
- Linux Command Line
- WebSockets
- Authentication Systems (JWT-based)
- Deployment Workflows

### State Management

- Zustand
- Redux
- Context API

### Backend & Database

- Node.js / Express
- PostgreSQL
- MySQL
- MongoDB
- RESTful API Development

# Other Projects

## Caffix – Online Coffee Store (Yangon | Nov 2024)

Tech Stack: React, Zustand, PostgreSQL, Express

- Developed a full-featured Point of Sale (POS) system for managing sales, inventory, and transactions.
- Built a responsive frontend using React with efficient state management via Zustand.
- Integrated PostgreSQL database through an Express backend API.
- Implemented cart functionality, order processing, and real-time inventory updates.

## MobileLegends Top-up App (Thailand)

Cocodp.com

Tech Stack: React, Zustand

- Developed a web-based top-up platform for Mobile Legends game credits.
- Designed a smooth and user-friendly purchasing flow.
- Managed application state efficiently using Zustand.
- Ensured secure transaction handling and responsive UI design.

Admin & Backend System

Tech Stack: React Native, Zustand, MySQL, Node.js

- Built an admin management system for products, users, orders, and top-ups.
- Implemented item management and purchase tracking features.
- Designed database structure using MySQL and RESTful APIs with Node.js.
- Enabled customers to top up and purchase in-game items seamlessly.
